The interest rates quoted above were correct on 13/03/2025.	

Account Terms

These account terms, along with the summary box and our Savings Terms and Conditions, apply to your Branch 5 Access Bonus Saver (the account).

If there is any difference between these account terms and the Savings Terms and Conditions, these account terms will apply.

Opening your account

To open and use the account, you must be aged 16 or over and either:

- a UK resident, meaning that you have your permanent home in the UK (except the Channel Islands or the Isle of Man); or
- a Crown employee (employed by the Government and serving overseas) or married to or in a civil partnership with a Crown employee.

You'll need proof of your address and identity.

You can have up to four joint account holders.

This account has limited availability. We can stop accepting new applications at any time.

Putting money into the account

The first payment into the account must be at least £1. If we do not receive it within five business days of your account opening we will close it.

You can make payments into the account using cash, cheques or electronic payments from another UK bank or building society account, or a Principality account in your name, if allowed by that account.

You must keep at least £1 (the minimum balance) in the account.

If the account reaches £2,000,000 you cannot pay any more money in.

This account has a variable interest rate. This means that the rate can go up and down. This is explained in the Changes to interest rates section of the Savings Terms and Conditions.

We work out the interest on the money in the account daily and pay it on 1 January each year.

The interest can be

- paid into the account
- paid into another Principality account in your name; or
- paid by electronic payment into another UK bank or building society account in your name, if the interest is £5 or more.

Taking money out of the account

You can take money out of the account up to five times in any calendar year.

For more information, see the Taking money out of the account section of the Savings Terms and Conditions.

Closing the account also counts as taking money out.

Unless we reduce the interest rate or bonus rate, you can't take money out of the account again until the start of the next calendar year.

If we reduce the interest rate or bonus rate, you can take money out of the account one more time within 30 days from the date we tell you about the change.

Closing the account

As closing the account counts as taking money out, you can only close the account if you have not already taken money out five times in the current calendar year. If you have, you cannot close the account until the start of the next calendar year.

If we reduce the interest or bonus rate, you can use your extra withdrawal to close the account.

If you close the account, you won't lose interest.

We will close the account if the money in the account is below the minimum balance.

12 Month Variable Bonus

The interest rate you will receive for the first 12 months the account is open will be the variable rate of 2.95% plus the variable bonus rate of 1.05%.

After 12 months, the bonus rate will no longer apply and the interest rate you receive will be the variable rate without the bonus. This variable rate is currently 2.95%.

We will contact you to remind you before this happens.

After the bonus rate is removed, you can take money out of the account up to five times for the remainder of the calendar year, no matter how many withdrawals you have already made.

After this, you can take money out of this account up to five times each calendar year.

* Gross interest is the rate of interest before income tax is deducted at the rate set by law.

[†] AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest were paid once each year on the whole balance, including previous interest payments.
